

TAKE IT TO THE
MAX
WITH MAXTOP QUARTZ

QUARTZ MADE SIMPLE

Enjoy the stunning beauty and strength of a solid quartz surface, without any of the drawbacks of traditional solid stone surfaces. Maxtop Quartz is Europe's leading modular quartz product, redefining the benchmark for engineered stone in the kitchen industry.

Pre-finished worktops with undeniable strength and surprising lightness mean that installers and consumers get maximum benefits with minimum fuss.

MAX BEAUTY

Maxtop Quartz offers the aesthetic benefits of a solid stone surface, but with the advantage of a deeper 40mm profile - a depth that is impractical with conventional fabrication.

Every surface is edged with 8mm solid quartz to give a perfectly uninterrupted look. Design options are further enhanced by a choice of 10 natural decors, so there's a surface for any kitchen.

MAX STRENGTH

The patented interior structure of Maxtop Quartz is not only the secret to its lightweight properties, but it's also the secret of its superior strength. Its non-wood based honeycomb core offers 100% moisture protection to a surface that's light enough to be handled manually, but offers higher strength than other stone worktops.

MAX CONVENIENCE

Factory pre-finishing means that Maxtop Quartz surfaces are ready for immediate sale and installation, in contrast to many solid solutions that require a 3-4 week wait from the time of order.

Storage and logistics are made easy too, thanks to standard modular sizing, 'off the shelf' availability and lightweight ergonomics.

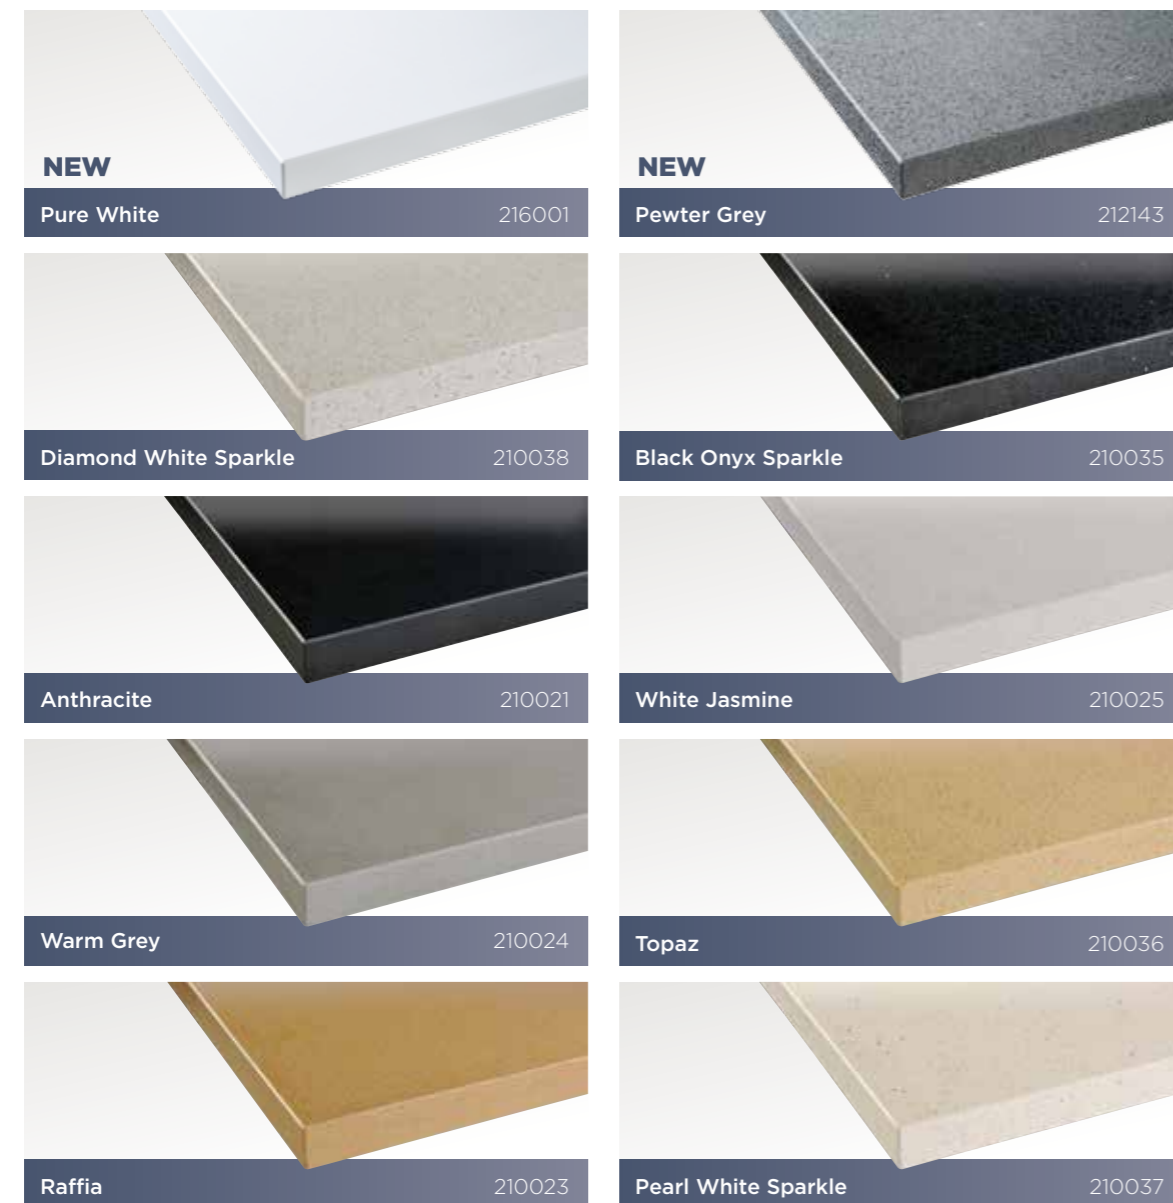

MAX FITTING SIMPLICITY

Installation is a breeze as worktops can be fitted using normal techniques similar to those used in laminate installation. Three standard worktop sizes are available and every pack comes with two upstand sizes and edging solution as standard, so there's no need to purchase extra items.

A COLOUR FOR EVERY KITCHEN

10 stunning decors open up a whole world of design freedom.

Not only are our worktops easy to fit, but they're easy on the eye too. Each colour is hand-picked with meticulous care to fit the latest trends, and more importantly, fit the mood you desire. Now, with the addition of Pewter Grey and Pure White, there are even more premium options that you could use to create a centerpiece for your kitchen.

SPECIFICATIONS

TOPS
 3000 x 600 x 40mm (63kg)
 2400 x 600 x 40mm (51kg)
 1500 x 600 x 40mm (32kg)
 2400 x 900 x 40mm (77kg)

UPSTANDS 3000 x 100 x 8mm (10kg)

- Tops are edged all round
- FREE edging strip included
- 2 FREE 40mm upstands included in 600mm wide worktops
- 100mm high upstands are available
- Upstands and spare edging strip are in matching acrylic for safety

CARE AND MAINTENANCE

Maxtop worktops are designed with the busiest kitchens in mind. Here's how to make the most of yours and keep it looking stunning.

HOW DURABLE IS MAXTOP QUARTZ?

Maxtop Quartz is non-porous, so stain and odour causing bacteria, mould, and mildew cannot penetrate the surface.

Maxtop Quartz is resistant to stains, scratches and scuffing and also highly heat-resistant. It has high resistance to most common household chemicals.

Maxtop Quartz is low maintenance and no sealing, waxing or special polishing is required compared to granite, timber or acrylic based solid surface materials.

Maxtop Quartz is 100% waterproof and contains no timber based materials.

REGULAR CLEANING

Simply clean with warm water and mild detergent to keep Maxtop Quartz surfaces looking their best.

To remove adhered material such as food, gum, nail polish or even dried paint, first scrape away excess material with a plastic putty knife and then use a damp cloth to remove any marks or residual dirt.

Stains can occur on the surface of the material if fruit, tea or coffee etc. is not wiped away in good time. Stubborn surface stains can be removed with a paste of baking soda and water.

If the stain is especially stubborn, cover the stain with the mixture and a plastic wrap (e.g. an upturned plastic container to keep in place). Leave overnight and rinse with warm water in the morning and the stain should be lifted from the surface.

For an all over deep cleaning of Maxtop Quartz, saturate with spray-on glass cleaner and allow up to 10 minutes before wiping away with a wet cloth.

INSTALLATION AND TECHNICAL MANUAL

Thinking of installing a Maxtop worktop? Get our manual online at maxtopquartz.co.uk.

It includes all of the essential information you'll need to install Maxtop products effectively and efficiently across a variety of specifications.
